#38458
3″ Type S Quick Change Disc

Primarily used for surface finishing and preparation, FD quick change discs provide a consistent cutting rate and repeatable finish on stainless steels and non-ferrous metals. Cooler temperatures are maintained, resulting in longer life for uninterrupted application.

Specifications

Diameter	3"
Button Type	Type S
Max RPM	20,000
Opt RPM	4,500
Brand	SHUR-BRITE™
Material Type	Nonwoven
Nonwoven Class	Finish Duty
Nonwoven Category	Surface Conditioning
Abrasive Grain	Silicon Carbide
Color Family	Gray
Backing Type	Low Stretch
Waterproof	Yes
Product Form	Quick Change Disc
Grade	SFN
Standard Package Quantity	25
Stock Status	Non-Stock

Features / Applications

The smaller diameters of quick change discs allow easy access to tighter areas of intricate workpieces, while maintaining a higher speed for aggressive material removal or blending. Used on right angle die grinders, quick change discs can be finessed and easily controlled for precision material removal, shaping or blending applications. Worn discs can be replaced without additional tooling, minimizing production downtime, and easing progressive finishing steps.

Features	Achieve required surface finishes Progressive scratch removal Surface treatment & preparation Added flexibility
