

#10763

1-1/2" x 72" Coated Belt

Dense, blocky grain well suited for general purpose grinding and stock removal. Airfile belts easily reach narrow areas inaccessible by discs or wheels. Durable use on ferrous, non-ferrous, stainless steels, alloys and non-metallics.

Wide belts fit a wide range of stationary equipment for high production processing. Greater surface area and longer life with consistent finishing qualities. Dense, blocky grain well suited for general purpose grinding and stock removal. Durable use on ferrous, non-ferrous, stainless steels, alloys and non-metallics.

Specifications

Width	1-1/2"
Length	72"
Brand	SHUR-KUT™
Material Type	Coated
Abrasive Grain	Aluminum Oxide
Product Form	Belt
Grit	40
Standard Package	50
Quantity	
Stock Status	Non-Stock

Features / Applications

Due to the size range of coated belts, applications range from small inside corner weld removal to coil and sheet steel surface finishing. The availability of backing weight and flexibility allows use with small airfile contact wheels to larger diameter drum or cylindrical grinding. Durability also prevents stretch or slack in backstand applications, allowing coated materials to perform properly with consistent wear.

Features	General stock removal and shaping Cylindrical shaping or conditioning Inside corner weld removal Deburring handheld parts
