

**#11824**  
**4-1/2" x 7/8" Type 27 Flap Disc**

Dense grains continually generate new cutting edges, ideal for long lasting stock removal. Sharp grains reduce heat and friction in high pressure applications.

**Specifications**

<b>Diameter</b>	4-1/2"
<b>Arbor Diameter</b>	7/8"
<b>Type</b>	Type 27
<b>Shape</b>	Flat
<b>Max RPM</b>	13,300
<b>Brand</b>	SHUR-KUT™
<b>Material Type</b>	Coated
<b>Abrasive Grain</b>	Zirconia
<b>Color Family</b>	Blue
<b>Backing Type</b>	Cloth
<b>Backing Weight</b>	X-Wt.
<b>Product Form</b>	Flap Disc
<b>Grit</b>	80
<b>Standard Package Quantity</b>	10
<b>Stock Status</b>	Stock

**Features / Applications**

Overlapping layers of coated abrasives wear down to expose new cutting surfaces, allowing extended use of flap discs and much more control and comfort than rigid grinding wheels. The profile of flap discs, either flat faced (Type 27) or angle faced (Type 29) controls the amount of leverage applied to surfaces. Type 27 flap discs are better for finesse and extended use, whereas Type 29 discs are much more aggressive. Standard density discs provide less flap compression, best suited for stock removal and rough shaping. High density discs utilize more flaps, prolonging life, and are less compressed, allowing limited conformability to the workpiece.

**Features**

Aggressive stock removal on hard metals and alloys  
Sharp cut reduces heat, friction and heavy loading  
High pressure applications
