Features / Applications

The solid, single layer design of spiral bands produces rapid material removal on curved or contoured parts. Used with a well-balanced rubber drum, bands are smooth in operation and do not chatter during use. With the firm combination of abrasive band and rubber drum, precise diameter grinding and finishing is achievable.

Features

Remove or shape parts quickly
Navigate contoured surfaces easily
Fast changeover with no tooling
Parting line and flash removal
Precise deburring and blending
