

#24392
25″ x 75″ Coated Belt

Wide belts fit a wide range of stationary equipment for high production processing. Greater surface area and longer life with consistent finishing qualities. Dense, blocky grain well suited for general purpose grinding and stock removal. Durable use on ferrous, non-ferrous, stainless steels, alloys and non-metallics.

Specifications

Width	25"
Length	75"
Brand	SHUR-KUT™
Material Type	Coated
Nonwoven Class	Wide
Abrasive Grain	Aluminum Oxide
Grinding Aid	Yes
Color Family	Brown
Backing Type	Cloth
Backing Material	Poly/Cotton
Backing Weight	X-Wt.
Bond Type	Resin/Resin
Product Form	Belt
Grit	40
Standard Package Quantity	5
Stock Status	Non-Stock

Features / Applications

Due to the size range of coated belts, applications range from small inside corner weld removal to coil and sheet steel surface finishing. The availability of backing weight and flexibility allows use with small airfile contact wheels to larger diameter drum or cylindrical grinding. Durability also prevents stretch or slack in backstand applications, allowing coated materials to perform properly with consistent wear.

Features	Aggressive, general purpose cutting action Leveling surface imperfections High production grinding or polishing
