

**#28799****Flap Wheel Test Kit Assorted Sizes**

A variety of the most popular shank mounted flap wheels to match several applications in one convenient test kit.

Specifications

Diameter	Various
Width	Various
Arbor Diameter	Various
Brand	SHUR-KUT™
Material Type	Coated
Abrasive Grain	Aluminum Oxide
Mounting	Shank Mounted
Product Form	Flap Wheel
Grit	Various
Standard Package Quantity	1
Stock Status	Stock

Features / Applications

Flexible flaps are arranged radially around a center core allowing high removal and finishing rates with reduced pressure and fatigue from operators. The flexibility of the flaps allows excellent control and conformability on contours and inside or around intricate parts. As the grains wear away, so does the cloth backing, continually exposing fresh abrasive material and sharp cutting grains. The variety of shapes and sizes available provide versatility in grinding, deburring and polishing flat or contoured surfaces and edges. Several mounting options are available for many tools, including right angle grinders.
