

**#28849****4-1/2" x 7/8" Type 29 HD Flap Disc**

Increased flap count provides moderate compression for better blending and finesse. Greater cutting area promotes extended life and consistent performance throughout use.

**Specifications**

<b>Diameter</b>	4-1/2"
<b>Arbor Diameter</b>	7/8"
<b>Type</b>	Type 29
<b>Shape</b>	Angle
<b>Density</b>	High
<b>Max RPM</b>	13,300
<b>Brand</b>	SHUR-KUT™
<b>Material Type</b>	Coated
<b>Abrasive Grain</b>	Zirconia
<b>Color Family</b>	Blue
<b>Backing Type</b>	Cloth
<b>Backing Weight</b>	X-Wt.
<b>Product Form</b>	Flap Disc
<b>Grit</b>	60
<b>Standard Package Quantity</b>	10
<b>Stock Status</b>	Stock

**Features / Applications**

Overlapping layers of coated abrasives wear down to expose new cutting surfaces, allowing extended use of flap discs and much more control and comfort than rigid grinding wheels. The profile of flap discs, either flat faced (Type 27) or angle faced (Type 29) controls the amount of leverage applied to surfaces. Type 27 flap discs are better for finesse and extended use, whereas Type 29 discs are much more aggressive. Standard density discs provide less flap compression, best suited for stock removal and rough shaping. High density discs utilize more flaps, prolonging life, and are less compressed, allowing limited conformability to the workpiece.

**Features**

Longer life for repeatable application  
Aggressive weld and stock removal  
Quickly blend flat and contoured seams  
Leveling or blending imperfections

**Additional Information****Proposition 65 Warning Statement**
