

**#32050**  
**2" Type R Quick Change Disc**

Reduced heat, general purpose grinding action on a variety of materials. Ideal for stock removal, shaping and deburring. Specially applied grinding aid reduces heat in aggressive, high pressure applications, extending cutting life.

**Specifications**

<b>Diameter</b>	2"
<b>Button Type</b>	Type R
<b>Max RPM</b>	30,000
<b>Opt RPM</b>	10,500

**Features / Applications**

The reduced diameter of quick change discs provide ease of use on intricate parts, and excellent control when shaping or blending surface portions. Ideally used on flat surfaces to utilize more cutting action, the moderate flexibility of quick change discs and their holders also allow contouring and access to inner corners. The unique quick change functionality reduces changeover downtime and eases transitions between grit, material, or even abrasive type where multistep processes are required.

**Features**

Additional heat dissipation non-ferrous metals  
Cool cutting action and extended life  
Efficient grinding and shaping on aircraft grade aluminum
