

**#32120B**
4" Type R Quick Change Disc

A balanced density of grains and resin offer a controlled cut rate on harder metals and less loading on softer materials. Moderate cushion and flexibility reduces gouging or marring on all flat surfaces and contours.

Specifications

Diameter	4"
Button Type	Type R
Max RPM	12,000
Opt RPM	3,500
Brand	SHUR-BRITE™
Material Type	Nonwoven
Nonwoven Class	Grind Duty
Nonwoven Category	Surface Conditioning
Abrasive Grain	Aluminum Oxide
Color Family	Brown/Brown
Backing Type	Scrim
Waterproof	Yes
Product Form	Quick Change Disc
Grade	CRS
Standard Package Quantity	25
Stock Status	Stock

Features / Applications

The smaller diameters of quick change discs allow easy access to tighter areas of intricate workpieces, while maintaining a higher speed for aggressive material removal or blending. Used on right angle die grinders, quick change discs can be finessed and easily controlled for precision material removal, shaping or blending applications. Worn discs can be replaced without additional tooling, minimizing production downtime, and easing progressive finishing steps.

Features

Blending coated scratch patterns
Equal performance on flat or contoured surfaces
Reduced risk of gouging softer materials
Consistent performance
Several grades available for progressive finishing
