

**#36684**  
**2" Type R Quick Change Disc**

Long lasting, durable grains and sharp cutting action with additional grinding aid to reduce heat generation. Cooler cut reduces friction and premature breakdown of grains and backing.

**Specifications**

|                                  |                   |
|----------------------------------|-------------------|
| <b>Diameter</b>                  | 2"                |
| <b>Button Type</b>               | Type R            |
| <b>Max RPM</b>                   | 30,000            |
| <b>Opt RPM</b>                   | 10,500            |
| <b>Brand</b>                     | SHUR-KUT™         |
| <b>Material Type</b>             | Coated            |
| <b>Abrasive Grain</b>            | Zirconia          |
| <b>Grain Enhancement</b>         | Grinding Aid      |
| <b>Grinding Aid</b>              | Yes               |
| <b>Color Family</b>              | Green             |
| <b>Backing Type</b>              | Cloth             |
| <b>Backing Material</b>          | Polyester         |
| <b>Backing Weight</b>            | Y-Wt.             |
| <b>Bond Type</b>                 | Resin/Resin       |
| <b>Grain Coverage</b>            | Closed Coat       |
| <b>Product Form</b>              | Quick Change Disc |
| <b>Grit</b>                      | 40                |
| <b>Standard Package Quantity</b> | 100               |
| <b>Stock Status</b>              | Stock             |

**Features / Applications**

The reduced diameter of quick change discs provide ease of use on intricate parts, and excellent control when shaping or blending surface portions. Ideally used on flat surfaces to utilize more cutting action, the moderate flexibility of quick change discs and their holders also allow contouring and access to inner corners. The unique quick change functionality reduces changeover downtime and eases transitions between grit, material, or even abrasive type where multistep processes are required.

**Features**

Extended stock removal with low heat generation  
Aggressive grinding on stainless steel  
Hybrid grain exposes fresh cutting edge during use
