

**#38436**
19" x 48" Coated Belt

Wide belts fit a wide range of stationary equipment for high production processing. Greater surface area and longer life with consistent finishing qualities. Dense, blocky grain well suited for general purpose grinding and stock removal. Durable use on ferrous, non-ferrous, stainless steels, alloys and non-metals.

Specifications

| | |
|----------------------------------|----------------|
| Width | 19" |
| Length | 48" |
| Brand | SHUR-KUT™ |
| Material Type | Coated |
| Nonwoven Class | Wide |
| Abrasive Grain | Aluminum Oxide |
| Product Form | Belt |
| Grit | 40 |
| Standard Package Quantity | 5 |
| Stock Status | Non-Stock |

Features / Applications

Due to the size range of coated belts, applications range from small inside corner weld removal to coil and sheet steel surface finishing. The availability of backing weight and flexibility allows use with small airfile contact wheels to larger diameter drum or cylindrical grinding. Durability also prevents stretch or slack in backstand applications, allowing coated materials to perform properly with consistent wear.

Features

Aggressive, general purpose cutting action
Leveling surface imperfections
High production grinding or polishing
