

**#38858**  
**2" Type R Quick Change Disc**

Durable and long-lasting finishing when a higher cut rate is necessary. Strong fibers resist snagging or tearing on intricate parts and can handle higher applied pressure. The quick change holder provides directional pressure from the tool for better control and off-hand finesse.

**Features / Applications**

Due to the high strength nylon fibers and resin content, satin finishing discs can withstand higher rotational speed in both stationary or portable use, for flat or on-edge application. Both quick change and arbor mounted options are available for use with small or intricate parts to larger contours.

**Features**

Edge deburring on extrusions  
Finishing brass or steel stampings  
Final finishing of intricate aerospace parts
