

**#40293**
2" Type R Quick Change Disc

Clusters of aluminum oxide grains wear away to reveal fresh grains to maintain cutting rate and consistency, substantially extending disc life. Ideal for consistent surface finishes and stock removal rates.

Specifications

| | |
|----------------------------------|------------------------------|
| Diameter | 2" |
| Button Type | Type R |
| Max RPM | 30,000 |
| Opt RPM | 10,500 |
| Brand | SHUR-KUT™ |
| Material Type | Coated |
| Abrasive Grain | Aluminum Oxide Compact Grain |
| Color Family | Brown |
| Backing Type | Cloth |
| Backing Material | Polyester |
| Backing Weight | X-Wt. |
| Bond Type | Resin/Resin |
| Grain Coverage | Semi-Open Coat |
| Waterproof | Yes |
| Product Form | Quick Change Disc |
| Grit | 180 |
| Standard Package Quantity | 100 |
| Stock Status | Non-Stock |

Features / Applications

The reduced diameter of quick change discs provide ease of use on intricate parts, and excellent control when shaping or blending surface portions. Ideally used on flat surfaces to utilize more cutting action, the moderate flexibility of quick change discs and their holders also allow contouring and access to inner corners. The unique quick change functionality reduces changeover downtime and eases transitions between grit, material, or even abrasive type where multistep processes are required.

Features

Consistent performance and extended wear rate
Moderate pressure to evenly break down grain clusters
Consistently polishing multiple heat sensitive parts
