

**#40294**
2" Type R Quick Change Disc

Clusters of aluminum oxide grains wear away to reveal fresh grains to maintain cutting rate and consistency, substantially extending disc life. Ideal for consistent surface finishes and stock removal rates.

Specifications

Diameter	2"
Button Type	Type R
Max RPM	30,000
Opt RPM	10,500
Brand	SHUR-KUT™
Material Type	Coated
Abrasive Grain	Aluminum Oxide Compact Grain
Color Family	Brown
Backing Type	Cloth
Backing Material	Polyester
Backing Weight	X-Wt.
Bond Type	Resin/Resin
Grain Coverage	Semi-Open Coat
Waterproof	Yes
Product Form	Quick Change Disc
Grit	240
Standard Package Quantity	100
Stock Status	Stock

Features / Applications

The reduced diameter of quick change discs provide ease of use on intricate parts, and excellent control when shaping or blending surface portions. Ideally used on flat surfaces to utilize more cutting action, the moderate flexibility of quick change discs and their holders also allow contouring and access to inner corners. The unique quick change functionality reduces changeover downtime and eases transitions between grit, material, or even abrasive type where multistep processes are required.

Features

Consistent performance and extended wear rate
Moderate pressure to evenly break down grain clusters
Consistently polishing multiple heat sensitive parts
