**Features / Applications**

The smaller diameters of quick change discs allow easy access to tighter areas of intricate workpieces, while maintaining a higher speed for aggressive material removal or blending. Used on right angle die grinders, quick change discs can be finessed and easily controlled for precision material removal, shaping or blending applications. Worn discs can be replaced without additional tooling, minimizing production downtime, and easing progressive finishing steps.

**Features**

Aggressive blending & removal  
Firm cutting action for flat surfaces  
Heavy deburring  
Scale removal  
Rough shaping of soft materials  
Fastest initial stock removal
