

**#44030**
4-1/2" x 7/8" Type 29 Flap Disc

Dense grains continually generate new cutting edges, ideal for long lasting stock removal. Sharp grains reduce heat and friction in high pressure applications.

Specifications

Diameter	4-1/2"
Arbor Diameter	7/8"
Type	Type 29
Shape	Angle
Max RPM	13,300
Brand	SHUR-KUT™
Material Type	Coated
Abrasive Grain	Zirconia
Color Family	Blue
Backing Type	Cloth
Backing Weight	X-Wt.
Product Form	Flap Disc
Grit	80
Standard Package Quantity	10
Stock Status	Non-Stock

Features / Applications

Overlapping layers of coated abrasives wear down to expose new cutting surfaces, allowing extended use of flap discs and much more control and comfort than rigid grinding wheels. The profile of flap discs, either flat faced (Type 27) or angle faced (Type 29) controls the amount of leverage applied to surfaces. Type 27 flap discs are better for finesse and extended use, whereas Type 29 discs are much more aggressive. Standard density discs provide less flap compression, best suited for stock removal and rough shaping. High density discs utilize more flaps, prolonging life, and are less compressed, allowing limited conformability to the workpiece.

Features

Aggressive stock removal on hard metals and alloys
Sharp cut reduces heat, friction and heavy loading
High pressure applications
