

**#50765**  
**2" Type R Quick Change Disc**

Aggressive, consistent finishing on hard, contoured surfaces. Durable edge retention and less smearing when used at tighter angles.

**Specifications**

|                                  |                      |
|----------------------------------|----------------------|
| <b>Diameter</b>                  | 2"                   |
| <b>Button Type</b>               | Type R               |
| <b>Max RPM</b>                   | 30,000               |
| <b>Opt RPM</b>                   | 7,000                |
| <b>Brand</b>                     | SHUR-BRITE™          |
| <b>Material Type</b>             | Nonwoven             |
| <b>Nonwoven Class</b>            | Extended Performance |
| <b>Nonwoven Category</b>         | Surface Conditioning |
| <b>Abrasive Grain</b>            | Aluminum Oxide       |
| <b>Color Family</b>              | Maroon               |
| <b>Backing Type</b>              | Scrim                |
| <b>Waterproof</b>                | Yes                  |
| <b>Product Form</b>              | Quick Change Disc    |
| <b>Grade</b>                     | MED                  |
| <b>Standard Package Quantity</b> | 50                   |
| <b>Stock Status</b>              | Stock                |

**Features / Applications**

The smaller diameters of quick change discs allow easy access to tighter areas of intricate workpieces, while maintaining a higher speed for aggressive material removal or blending. Used on right angle die grinders, quick change discs can be finessed and easily controlled for precision material removal, shaping or blending applications. Worn discs can be replaced without additional tooling, minimizing production downtime, and easing progressive finishing steps.

**Features**

Heavy blending & deburring  
High edge endurance  
Aggressive action on contours  
Consistent, heavy finishing  
Reduced heat on hard metals
