

**#51408**
7" Hook & Loop Disc

Consistent surface refinement and finishing on harder metals. Durable edge retention for heavy, inside diameter deburring or weld removal.

Specifications

| | |
|----------------------------------|----------------------|
| Diameter | 7" |
| Max RPM | 6,000 |
| Opt RPM | 1,800 |
| Brand | SHUR-BRITE™ |
| Material Type | Nonwoven |
| Nonwoven Class | Extended Performance |
| Nonwoven Category | Surface Conditioning |
| Abrasive Grain | Aluminum Oxide |
| Color Family | Maroon |
| Backing Type | Scrim |
| Waterproof | Yes |
| Attachment Type | Hook & Loop |
| Product Form | Hook & Loop Disc |
| Grade | MED |
| Standard Package Quantity | 20 |
| Stock Status | Stock |

Features / Applications

For removal, blending, surface preparation and finishing of larger areas, the hook and loop attachment system safely secures larger diameter discs to multiple tools. Compared to smaller quick change discs, full surface treatments of larger workpieces can be completed with less changeover, and product or operator fatigue. Best for flat and moderately contoured surfaces, materials available are well suited for a variety of industrial applications.

Features

Heavy blending & removal
High edge endurance
Aggressive action on contours & inside corners
Consistent finishing with long life
Reduced heat on hard metals
