Features / Applications

Several wheels are available exclusively for right angle and variable speed angle grinders, taking advantage of the familiarity and ease of use of the tool. Larger areas can be cleaned, prepped or finished faster, and multiple operations can be achieved without changing tools. Wheels specifically made for angle grinders are a convenient alternative to flap drums and their required linear finishing tools.

Features

Repair transitions or grain finishes
Flexible and forgiving on contoured and intricate parts
Finish or deburr larger extrusions
Safely remove burrs on gears or coarse threads
Produce fine scratch patterns
