**SHUR-BRITE® Satin Finishing**

**Duplex Wheels**

Simultaneous cutting action from alternating coated and satin flaps for controlled balance of aggressive finishing and cushioned finesse. Conforms to slight contours and less intricate parts while still able to shape and remove material.

**Features**

- Remove and blend in one operation
- Satin cushion between coated flaps
- Available for handheld or stationary use

---

**HEAVY DUTY MOUNTED DUPLEX WHEELS**

Tough but conformable wheels able to reach smaller areas and inner diameters and contours. Ideal for consolidating removal and blending steps into one operation.

- Coated flaps remove and clean surface imperfections
- Satin flaps blend and finish parts
- Easily remove and blend seams, parting lines or small welds in one operation
- Blend or repair flat or contoured scratch patterns

---

**Superior Support**

Flap wheels are a great tool for edge breaking in hard to reach areas, which softens a sharp edge to increase the surface area for paint or coating adhesion.

Best ☀ Better ☀ Good
HEAVY DUTY
UNMOUNTED DUPLEX WHEELS

Conformable, yet sturdy action for stationary equipment and smaller, hand-held parts. Easily remove surface coatings or oxidation, blend or repair finishes on which slight material removal may be necessary.

- Coated flaps remove and clean surface imperfections
- Satin flaps blend and finish parts
- Remove & blend parting lines or small welds in one operation
- Blend or repair scratch patterns
